

KNIGHTS KNATION BASEBALL

#PROTECT OUR PLAYERS

The “Armor” of Knights Knation, our “Protect Our Players” initiative was designed to be a layer of protection for all the players of Knights Knation. This “Knetwork” of health care providers not only assists in the treatment of injuries when they occur; but, to also try to prevent them before they happen. From Orthopedics and Ent, to Physical Therapists and Mobility Screens, The “Protect Our Players” Program takes Knights Knation to a level that no other amateur baseball organization has ever been to Protect their Players. In January of 2021, we initiated our first round of Player Screens to establish baseline numbers for all the participants allowing us the ability to continually monitor and track the physical health of our players in subsequent screens moving forward.

- Mobility Screens
- Physical Therapy
- Strength & Conditioning
